Re: Site Name: Site #18
TDD No.: F05-8702-026

Dear Mr. Kirsch:

As per our phone conversation on April 7, 1987, I am sending you additional information concerning our firm. Ecology and Environment, Inc. has been retained by the U.S. Environmental Protection Agency under contract 68-01-7347 for the purpose of evaluating candidate sites for the National Priorities List under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) better known as Superfund. Amendments and Reauthorization Act (SARA).

Information supplied to the U.S. EPA through CERCLA notifications as required by Section 103(c) of CERCLA has identified the property in question as a possible candidate for the National Priority List. As part of our evaluation, the U.S. EPA has asked us to perform an on-site inspection of the property in question. This is the reason for my request to visit your property on May 6, 1987 at 9:00 a.m.

I have attached a copy of the Letter of Introduction provided by the U.S. EPA for Ecology and Environment employees engaged in field investigation work, which outlines the statutory basis for such inspections. Also, attached is a copy of the confidentiality memorandum that all Ecology and Environment employees have signed. So you have a better understanding of the questions we need to ask, I have also attached a copy of the site inspection form.

We would like to arrange for an interview with you either on-site or at your residence in Lansing on the day of our site inspection. I will call you again to confirm a time and place to meet.

If you require additional information or if a change in plans is necessary, please do not hesitate to call me.

Sincerely,

Dirk Kaiser
